EXPERIENCE

iSeatz, New Orleans, LA.
Project Manager
2016 - 2020

Managed a portfolio of projects reaching an annual budget of $2M including development, quality assurance and implementation services leveraging scrum and agile methodologies.

Created budgets, tracking and maintaining multiple project costs on a daily, weekly and monthly basis ensuring the lowest cost impact to the company and resources.

Tracked project progress via Gantt charts, Agile boards, time tracking tools and daily reporting.

CMMC, Jackson, MS.
Exercise Physiologist
2009 - 2013

Developed and monitored exercise programs for patients living with heart and/or lung disease. Focused on the upkeep of compliance from all insurance and hospital regulations.

Outback Steakhouse, Nashville, TN.
Regional Kitchen Manager
2003-2006

Advised and developed kitchen managers and partners within a region of 17 stores throughout Kentucky and Tennessee.

Controlled food and labor costs through planning, placing orders, and staff scheduling.

PROJECTS

MyVote

Full stack web application that will allow users to browse local voting ballots based on their location and gather relevant information for each candidate.

Utilized React and Material UI to build out components for easy access to relevant candidate information.

Built an API using Node and Express to call an api and store the data in our MongoDB.

Fantasy Stock

Fantasy based stock game that allows users to create a portfolio and go head-to-head weekly to see who can earn the most money.

Implemented React Redux for state management to have access across all components.

Effectively built API functionality that was dependent on time sensitive responses.

TECHNICAL SKILLS

Javascript   React   Redux
Nodejs   Express   MongoDB
PostgreSQL   AWS   Python
HTML   CSS   Jira   Git
